# Counting Vitae

Yingwei Zhai - January 12, 2017

In this project, I used plaintext version of my LinkedIn profile to created a bar chart. This chart shows the number of each character in my LinkedIn profile, with no distinction between upper case and lower case of the same letter.

Code Link: https://github.com/Ingveyyy/Work-Market/blob/master/Counting%20Vitae.ipynb (The chart is interactive in the Jupyter notebook)

LinkedIn Profile: https://ca.linkedin.com/in/yingwei-zhai
